All students are given a diagnostic test. Testing ensures that students are receiving the appropriate level of challenge and avoids being re-taught skills they already possess.

Diagnostic tests are scheduled by appointment only.

To schedule a test, please call
(408) 376-0752

WE ARE

We have been working with students of all ages to reach their full potential for over 25 years. We focus on a number of subject areas including our proprietary curriculum for the High School Preparatory Test (HSPT). Classes are taught in a focused environment which creates an engaged and dynamic learning experience.

Our approach is highly individualized. We empower our staff by providing them with the latest tools, curriculum and training to ensure that they can deliver the best learning experience for your student.

- 9:00 - 1:00PM
- 2:00 - 4:00PM
- 2:00 - 4:00PM
- 2:00 - 4:00PM

MATH

For entering 3rd-5th graders, these classes focus on the foundations of common core math, problem solving and critical thinking skills.

WRITING

We're excited to announce a brand new writing curriculum written by a former colleague of renowned writing expert Lucy Calkins specifically for our students. This workshop will explore fictional writing and teach the skills to become a more advanced academic writer

CODING

This beginners level coding class will use Scratch to create basic logic and games.

SPANISH

Taught by native speakers, our Spanish class is run in a fun and interactive format to encourage students to become more comfortable, fluent and conversational.

GEOMETRY

The program is tailored to 8th graders entering into high school geometry so they can excel in their first semester of school.

SPEED READING & STUDY SKILLS

Taught by an experienced instructor, this seminar style class covers specific study skills for both fiction and non-fiction reading. Class discussions cover interesting topics while practice is focused on timed speed reading sessions and study skills.
